

Charlotte FSDO/FAA Safety Team presents:

Go Beyond Your Checklist for Added Safety

Don't Be Surprised! Be Prepared! Pilots must know their aircraft inside and out. Beyond the preflight is designed to assist a pilot by enhancing their aircraft preflight knowledge beyond the standard use of their preflight checklist. This program teaches pilots additional items and techniques they can apply to their preflight inspection in conjunction with their standard aircraft preflight checklist to help reduce their risk of an accident. Right after the presentation there will be vendors available for various foods. Prices vary with vendors. Right after lunch, AOPA presentation will be on the Rusty Pilot. Learn more about the requirements of the biennial flight review and what to be prepared for. Be engaged with Jonathan Bass to be able to get your flight review without a worry.

Directions: This safety presentation will be held in the upstairs meeting room of the new terminal building. Elevator is available. Aircraft parking is available on ramp area.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
